

PLYMAN

GREATER SELECTION • BETTER VALUE

PRODUCT DATA SHEET

Gaboon (Okoume) Super Size Sheets 3100 x 1530mm

- **Description:** 100% Okoume plywood of selected, high strength natural rotary peeled wood veneer plywood sheets
- **Specie:** Okoume face and back. Mixed hardwood core.
- **Colour:** Pale pink / light brown colourings.
- **Size:** Super Size Sheets 3100x1530mm.
- **Thickness & Construction** Standard plywood construction, 12mm 7ply, 18mm 9ply.
- **Texture:** Even medium texture, slightly grainy with semi lustrous surface.
- **Density:** Average 490kg/m³
- **Source:** Veneer ex Africa, Manufacture ex China.
- **Grade:** BB/CC grade faces being clean veneer with small filled end cracks, pin knots but no broken knots.
Core veneers of B/C grade selected material having minimal internal open defects and edge core gaps or overlaps.
- **Gluing:** Marine Phenolic formaldehyde resin for the core material. Faces with MR PVA.
- **Workability:** Easily worked with standard tools. Due to low density nature of Gaboon, this plywood bends and has a low stiffness rating. Finishing can require light surface grain fill.
- **Durability:** Non Durable, therefore standard practice of thoroughly sealing with preservative compounds, paints or resins is applicable.
- **Uses:** All applications of marine interior construction, paneling, furniture etc. Requirements where weight is needed to be kept to a minimum. Excellent as a substrate for wood veneer or laminate overlay.
