

PLYMAN

GREATER SELECTION • BETTER VALUE

PRODUCT DATA SHEET

Waveply (Bendy Plywood)

- **Description** Thick veneer face & back with thin opposite direction centre veneer. Open grained face and back allowing excellent flexibility. Available in Long Grain or Cross Grain construction.
- **Specie:** Fuma
- **Colour:** Light Straw/ Mid brown
- **Size:** 2400x1200mm or 1200x2400mm
- **Thickness, Construction and Typical Weights:** 4mm, 6mm & 9mm
Selected thick faces with thin core and thermoset glues. Of 3 ply construction, choice of long grain or cross grain face direction. 4mm/5kg, 6mm/8kg, 9mm/10.7kg
- **Texture:** Open grained, medium texture. Grain opens more as sheets are curved.
- **Density:** 490kg/m³
- **Source:** Africa/Fiji
- **Grade:** Interior Grade (Moisture resistant Glue line)
- **Gluing:** MR Thermoset glue.
- **Workability:** Easy to work with standard woodworking tools. Its benefit is in its bendability and once laminated will hold its shape.
- **Durability:** Non Durable but standard practices dictate that all faces and edges be sealed for moisture protection.
- **Uses:** Perfect for curved interiors, columns, furniture, marine interiors, commercial fitouts, etc
